

60 Second RHA Radio Spot

(March 2010)

Hello, I'm Eileen Vodden of the Regional Health Authority – Central Manitoba here to share an important message regarding accessing the right health care service, at the right time It's free, it's professional, and it's the best possible health advice you can get over the phone.

RHA Central hospital staffs receive thousands of calls for medical advice each year. In order to ensure people are getting consistent advice with protocols approved Canada – wide, the RHA is recommending “Health Links - Info Santé”, a provincial telephone information and referral service staffed 24 hours a day, seven days a week by highly trained nurses with the latest technology and database at their fingertips You can reach Health Links – Info Santé at 1 Triple 8 - 315- 9257.

If it's an emergency, call 9-1-1. However, the next time the baby won't stop crying, the flu won't go away, or for any other non emergency health care enquiries – call Health Links-Info Santé at 1-Triple 8 – 315 - 9257.

I'm Eileen Vodden. . . and that's March's MONTH IN REVIEW from the RHA Central, helping you become, **AS HEALTHY AS CAN BE!**
